LicenseRef

Beyond SPDX: expanding licenses
identified by ClearlyDefined

Conda

Better identifying conda packages
with ClearlyDefined

GUAC

GUAC adopts license metadata
from ClearlyDefined

Announcing GUAC v0.8.0
Enhancements

Goals 2024/2025

1. **Bring back a unified vision for ClearlyDefined where the community is heard and can participate in.**
- Key result 1: Double number of players in the community by end of the year
  - 2023: Microsoft, SAP, Bloomberg
  - 2024: +GitHub, Stacklok, JetBrains, Codethink, Kusari ?
  - 2025: Cisco
- Key result 2: Double community contributions on GitHub by end of the year
2. **Work closely together with various other organizations, including the ORT, TODO Group, OSPO++, OSPO Alliance, OpenChain, SPDX, GUAC, Eclipse Foundation, and Software Heritage, to promote ClearlyDefined. Work closely together with OpenSSF.**
- Key result 1: Triple the number of organizations we are involved with
  - 2023: OpenChain, ORT (uses harvest data), Scancode (Roman from GitHub working with them)
  - 2024: +OpenSSF/GUAC, Eclipse Foundation (definition, curation), Software Heritage, TODO Group
- Key result 2: Increase activities (webinars, events, blog posts, social media, PRs) with various organizations by 100%
3. **Expand documentation (quickstarts, case studies, etc)**
