Community Meeting - May 5, 2025

Agenda

- Documentation / Curation
- OWASP / CycloneDX
- LF / SPDX
- OpenChain / ORT
- Maintainer Month

Documentation / Curation

- Ria (HPE) found multiple issues with curation
 - [Documentation](#) has been updated with new screenshots
 - UI challenging (for complex expressions)
 - Unable to contribute while logged in
 - API as the main path to curation

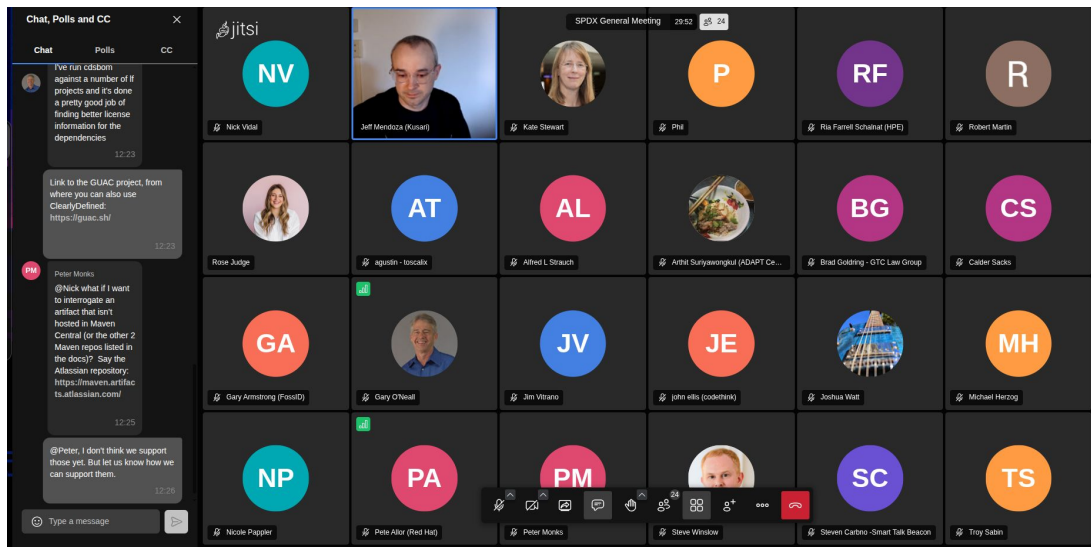

OWASP / CycloneDX

- Point of contact: Alyssa Wright and Steve Springett
- Meeting to discuss Licensing (April 11, 11am Eastern)
- Jeff Luszcz was able to provide great advice and share his experience
- Meeting's focus on existing tickets and existing solutions
 - <https://github.com/CycloneDX/specification/issues/454>
 - <https://github.com/CycloneDX/specification/issues/549>
 - <https://github.com/CycloneDX/specification/issues/554>
 - <https://github.com/CycloneDX/specification/issues/619>

LF / SPDX

- Point of contact: Jeff Mendoza, Gary O'Neal
- Jeff presented CD and cdsbom to a good audience, with lots of questions
- Gary from LF exploring CD for all projects from the Linux Foundation

OpenChain / ORT

- Point of contact: Shane Coughlan, Thomas Steenbergen, Marcel Kurzmann
- [OpenChain event in Stuttgart](#) (April 7-9)
- [ORT Community Days](#) will be held together

Maintainer Month

- Jeff Luszcz to [present](#)
at GitHub's Maintainer Month

May 6

17:00 pm - 18:00 pm UTC

10:00 am - 11:00 am PT

What Maintainers need to know about Open Source Licensing, SBOMs and Security

Join Jeff Luszcz from the GitHub Open Source Programs Office as he reviews what every maintainer should know about Open Source licensing, SBOMs, Security and what users are expecting in 2025. This will stream on GitHub's [Twitch](#), [YouTube](#), and [LinkedIn](#).
