

ClearlyDefined

Community Meeting - July 7, 2025

Agenda

- Resignation
- Elections
- OpenSSF Community Day
- Linux Foundation
- AboutCode

Resignation

- Unfortunately Lynette had to resign from the Steering Committee

“It is with sincere regret that I must inform you of a change in my priorities. As a result, I will no longer be able to fill any leadership roles within ClearlyDefined, and my participation in development will be minimal, if not non-existent. I sincerely hope that ClearlyDefined will find suitable replacements to continue the mission, as I believe the work is important and of great value.

I want to thank each of you for all your efforts. It has been a pleasure working together. I will miss the technical challenges we faced, but more so, working with team mates who are dedicated and talented.”

Elections

- Leadership gap
- Proposal: start Elections process next month to serve in October
 - August: Open call for candidates to Steering and Outreach Committees
 - September: Run elections
 - October: Elected members announced

OpenSSF Community Days

- Jeff Mendoza met Ria (HPE) and Adam (AboutCode)
- People interested in other information:
 - end of life, scorecard, cdsbom,
- Flag whether confidence score is below certain score
- Indication of not harvested, missing components?

Linux Foundation

- CD in SBOM generation for Linux Foundation projects
 - Issue with Rating limiting
 - Validation Error, GPL?
 - LicenseRef, to download licenseRef to be compliant with SBOM standards
 - LicenseDB has the license text
 - Agree with our handling of NOASSERTION

AboutCode

- Nonprofit ([AboutCode Europe ASBL](#))
